SUMMARY

Motivated IT fresher with a strong passion for software development, coding, and problem-solving. Currently building a solid foundation in Java, Data Structures and Algorithms, and MERN stack web development through structured learning and hands-on practice. Eager to apply technical skills to real-world projects and grow into a competent and impactful software developer.

SKILLS

Programming Languages: Java (Intermediate), Python (Basics), JavaScript (Basics)

Web Technologies: HTML5, CSS3, JavaScript, Node.js

Tools & Platforms: Git, GitHub, VS Code

Cloud & ML Platforms: Google Colab, Kaggle

EDUCATION

B.Tech in Mechanical Engineering	G. Pulla Reddy Engineering College	CGPA: 7.8	2023-present
Diploma in Mechanical Engineering	Dr. K.V.S.R Institute of Technology	88.96%	2020-2023
SSC (10th Grade), BSEAP		90.3%	2020

INTERNSHIP

Six Phrase — Student Intern (May 2025 – June 2025)

- Completed training in Core Java with hands-on mini projects: *School Payment Management System* and *Library Management System*.
- Gained practical exposure to OOP concepts, file handling, and application development.

PROJECTS

1) **CLI Quiz Generator using Gemini Flash 1.5**
(Java | API | File Handling | CLI)

- Built a CLI app that generates quizzes from text files using Gemini Flash 1.5 API.
- Implemented interactive quiz flow with auto-evaluation and scoring.

2) **Automated Fastener Measurement System**
(Python | OpenCV | ML)

- Designing a vision-based system to identify nuts, bolts, and screws using OpenCV and ML.
- Incorporates object detection, shadow removal, and dimension measurement with a 20mm reference square.
- Maps extracted features to specs.csv for predicting component specifications.
